# FOR KANSAS CITY DAY

COMMITTEE IN CHARGE TO MEET TO-MORROW MORNING

Will Arrange Plans at Commercia Club Rooms at 11 A. M.-Webster Davis May Be Invited to Speak.

Chairman J. C. James, of the Kansa City day committee, has cailed a meeting of the committee to be held at the Com mercial Club rooms at 11 o'clock to-morro morning, at which time steps will be taken to give Kansas City a good send-off at the Omaha exposition. An attractive programme will be arranged, and if the committee meets with the co-operation it expects from the public, August 6, Kansas City day, will be a creditable one for the metropolis of the Missouri valley.

she is a government pensioner and every three months she receives \$33. At the Central police station, while smoking her corncob pipe, "Auntie" told her story. She had wandered about the outskirts of the city Friday evening, "t'inkin'," as she expressed it, and finally attracted the attention of J. H. Colville, of 423 Jackson street. He questioned her but she was too busy "t'inkin' "to give intelligent replies to his questions, and he came to the conclusion that she was demented. He notified the Central police station and the patrol wagon was sent out. "Auntie" enjoyed her carriage ride, and when she arrived at the station was cheery and loquacious:
"Dey say dat I'se nearly a hundred years ole," she said, musingly, "an' dis is de fust time I'se eber been in a jail. But I'se happy, fo' I'se done nuffin' wrong and I neber has."
"Why were you wandering about the streets, auntie?" she was turned out ob our home, my dorter Fannie, an' me, an' I had no place to go. So I jes' walked an' walked, an' den I t'inked an' t'inked. But I'se happy, an' I know de good Lawd will pervide."

The old woman mused for a while and There has been very little discussion of details so far, and none of the members of the committee has any special plans to propose. The situation will be thoroughly discussed to-morrow morning, and ideas will be interchanged. Secretary Clendening of the Commercial Club has been invited to assist the committee and he will do so. It is probable that a special meet-ing of the club will be held in order that do so. It is probable that a special meeting of the club will be held in order that Kansas City may be represented in a manner befitting its importance. Efforts will be made to secure a low railroad rate for that day, and it is thought that a \$\mathbb{X}\$ round trip rate may be secured. Saturday being a general half holiday, a good crowd of Kansas Cityans is assured. Every effort will be made to make the day a success and to show that there is no unworthy jealousy existing between the two cities.

A number of prominent Kansas Cityans will be invited to deliver addresses. It has been suggested that an effort be made to have Hon. Webster Davis, assistant secretary of the interior, make one of the specence, and it is possible that something in this direction will be done.

Members of the city government will attend, though Mayor Jones has announced that he will be unable to be present. The exposition management has placed the various bands and other features of the fair at the disposal of the committee, and will do all in its power to contribute to the success of the occasion. The committee having Kansas City day in charge is seen Walked, an den I tinked an tinked. But I'se happy, an' I know de good Lawd will pervide."

The old woman mused for a while and puffed at her corncob until there was a halo of smoke about her grizzled head.

"Eber since my ole man died," she said, as though to herself, "times hab been hard. He's been dead five years. I lived at Marshall den, an' we had lots ob hogs, an' cows, an' plenty ob bread an' vittles, an' I wus so happy. Den I sold out an' I kem to Kansas City an' fust ting I knew my money wuz all gone. I wish dat ole Marster Calvert was alive, fo' if he wuz his ole auntie wouldn't be in a jail."

"But, auntie, you are not a prisoner," said a sympathetic bluecoat. "We are going to give you a good bed and a nice breakfast in the morning, and we are going to find you a home."

Tears filled the old woman's eyes, and raising her arms above her head, she exclaimed solemnly: "Not in jail! Bress you, good Lawd. I knowed you would pervide!"

"Auntie" then shook the ashes from her old corncob and ambled after a bluecoated guide to the quarters of the matron, "happy."

#### MAJORITY OF EIGHT INCHES. Closest Canvass on Record Won by Those in Favor of Paving West

Prospect Place.

There are no mugwumps among the property owners on West Prospect place between Twenty-first and Twenty-third streets. For months a lively contest for paving the street has been in progress and every property owner on the street has

every property owner on the street has taken sides one way or the other. The pavers have, according to a careful canvass, secured a majority of just eight inches over the anti-pavers, and the latter declare they will fight the matter in the courts before they will be saddled with the cost of the paving.

The fight has been complicated by the loss or theft of a remonstrance which was given to Councilman Beroth within the specified time, and by, him given to the city clerk. In some way the remonstrance was lost, stolen or strayed and the council went ahead with the paving ordinance, which was passed and the contract let. Another remonstrance was prepared after has played in Kansas City since Gilmore's band played at the exposition. The boys are thorough musicians and they handle the dinfeult Wagner music with the same ease that they play a popular tune or one of their own Hungarian "Czardas." In fact, the band plays Wagner better than Sousa's band, for Herr Schilzonyi seems to have a better conception of the Wagner time than does the "March king." Then the boys draw well because they are boys. It is little short of marvelous to see forty little fellows—the oldest only about 15, and the youngest only 6—playing music that excels that of almost all the "grown-up" bands. The band opens the second week of its engagement this afternoon. The programme follows: follows:

March—"El Capitan."

"American Fantasie" (Fisher).
Flueschiren solo—"Say Au Revolr" (Kennedy),
Peter Schmidt, 14 years old.
Fantasie (Kelar Bela).

Waltz—"Rosen Aus Dem Sueden" (Straum).

"Robin Hood" (DeKoven).

March—Selected.

which was passed and the contract let. Another remonstrance was prepared after the legal limit of time had expired, but it is claimed that this was a minority remonstrance, some of the anti-pavera going over to the pavers. At any rate, an ordinance to repeal the paving ordinance was introduced and pending the disposition of this ordinance the confirmation of the contract was held up.

Now the pavers come in with a petition against the repeal of the paving ordinance, and, after a careful canvass from the city and county records, it is found that the pavers have 272.16 feet, while the anti-pavers have 272.15 feet, a majority for the pavers of .56 of a foot, or eight inches. This is the closest canvass on record. The council will wrestle with the problem at its next meeting.

the gripmen and conductors on the West-port cable line spent the hours from 3 to port cable line spent the hours from 3 to 7 o'clock yesterday afternoon as the guests of Colonei and Mrs. Milton J. Payne on the lawn of their home at 2800 Main street. The lawn, nearly half a block in area, is thickly studded with large forest trees and in every way an ideal place for such an entertainment. Under the direction of Colonel Payne a large number of swings had been hung to the branches of the trees and numerous games provided for the little guests. The children were given the freedom of the whole place for the afternoon and made the most of it. Refreshments, consisting of ice cream, lemonade, cookies and watermelons were served.

"They are all having a good time," said Mrs. Payne, "and we enjoy having them here. There ought to be more of them. I wish there were a hundred. I find, however, from the list of the men on the line furnished me by the company, that, unfortunately for our little plan at least, a very large number of the conductors and gripmen have no families." Complaint has been made of the condition of Brooklyn avenue between Twentyeighth and Twenty-ninth streets, which is an impassable condition. The street be tween these two points is declared to be uttween these two points is declared to be ut-terly useless for the purposes of a thor-oughfare and all manner of refuse has been dumped into the street. As if this were not enough, a portion of the street has been fenced in. It is charged that this has been done by ex-Councilman J. W. Kidwell. The attention of the superintendent of streets will be called to the case to-morrow.

### MANY WILL GO TO SCHOOLS.

Private Secretary Hogg Says Outlook Is for Large Attendance at Kansas University. Archibald Hogg, of Lawrence, private

secretary of Chancellor Snow, of Kansas state university, passed through the city last night on his way home from a two last night on his way home from a two days' visit at the Omaha exposition. Mr. Hogg attends to all letters of inquiry in regard to the university, and says that the advance inquiries have never been so heavy at this season of the year before in the eight years he has known the school. The outlook for large crops of all kinds has given an impetus to the plans being made by parents for sending their sons and daughters to the university, and everything now indicates that the year 1898-39 will show by far the largest attendance the university has ever known.

May Have Showers To-day. Fair weather probably followed by showers or thunderstorms is the prediction for to-day. The highest temperature vesterday was 89 deg., and the lowest 74 deg. The threatened rain did not come, and there was not even a trace of precipitation.

The following were the hourly temperatures:

Western Union Messengers Lose 1

Their Attempt to Tie Up the

BOY STRIKERS ROUTED.

Company's Business. While the officials of the Western Union relegraph Company insisted yesterday that the business of the company had not beer crippled by the strike of the messenger boys, they did not deny that they had been troubled by it; in fact affirmed their trou-bles had been of more serious a nature than is generally admitted by employers when a strike occurs. About 300 mothers called at the main office yesterday and encalled at the main office yesterday and en-deavored to secure positions for their sons, and according to Manager John W. Mur-phy, most of the other mothers in the city either telephoned or wrote tendering the services of their sons to help defeat the purpose of the strike. The number of boys making personal applications might have been organized into a complete brigade with number equaling or exceeding army re-quirements.

quirements.

There were no demonstrations of violence resterday, the police warning the strik-ers that a repetition of their actions of Friday, when one messenger who was working was beaten and all of them terworking was beaten and all of them ter-rorized, would be followed by the arrest of the strikers, and also warning them that they must not congregate about the office of the company. As a result the corner at Seventh and Main was restored to its accustomed peace. None of the strik-ers could be found. They had separated and most of them were looking for other jobs. Their rout was complete. and most of them were looking for other jobs. Their rout was complete.

Mr. Murphy says it was a lockout and not a strike, and that only four boys were engaged in it. The boys, he says, were discharged for worthlessness and he argues that their actions yesterday showed the correctness of the company's estimate of them. As about 125 boys are employed by the Western Union and the highest estimates of the strikers as to the number out were only one-fifth of the total, it is evident that the strike was not general. Mr. Murphy says the company is constantly employing and discharging boys, and that at no time yesterday was it without a sufficient number for all its needs.

Small Fees of Marshal's Office.

Back of two years ago, when everybody connected with a United States marshal's office was paid fees, it was a slow month when the twenty-seven deputies in the field in this district could not earn a fair salary. Now that most of the officials are paid a regular salary the number of field men in the district has been reduced to six and it is estimated that the combined fees of all six did not amount to more than \$200 for the month of July.

## Don't judge a thing by its size.

gold is small. But you get the biggest value in the smallest package. The same thing is true in other directions. You don't get the biggest bundle in the world when you buy drugs of us, but you get real value. You get something that is really and truly good, and will cure if drugs can. There are bigger bundles sold, but they are not pure medicines. When you have to buy drugs you want and need the best. Cheap drugs are worse than useless. You get the purest and best here.

CARS. "I have traveled on most of the important

railroads in America and Europe, and have dined on such of them as have restaurant cars. I would rather dine on a Burlington Route Dining Car than on any railroad dining car that I know of in the world."

S. S. McCLURE, McClure's Magazine

## About Your New House.

When you build that new house you want to be sure the plumbing is properly done. We employ none but skilled workmen and use nothing but first-class material in our plumbing or steam and hot water heating, which is executed on the latest scientific principles. Estimates cheerfully furnished for any kind of work. Our prices are reasonable.
